In the Specification

Please amend ¶ 0008 as follows:

[0008] In connection with the invention, the continuous-trimming running mode known per se is used as the running mode on the slitter-winder so that attempts are made to run machine reels of maximum size within the limits set by technology and economy, and the method in accordance with the invention determines/optimizes the machine reel diameter based on the printing houses' restrictions (*Roll Paper Requirements and Specifications*, Version 1.4, June 16, 2000, Quebecor World Roll Paper Requirements and Specifications) or on converters' restrictions (*Smurfit-Stone, Containerboard Mechanical Roll Quality Standards*, 888 – 284 – 4470, Effective Date, June 1, 2001) on the splice location in the customer roll. The diameter determined in the method in accordance with the invention is fed manually or automatically to the reel-up to control the reel-up.
